

Lebanon participates in 'Energy & Arab Cooperation' - Abu Dhabi

Lebanon Gas and Oil

25 Dec, 2014

Lebanon has taken part in the 10th Arab Energy Conference which is currently taking place in UAE's Abu Dhabi, during the period of December 21-23, under the theme 'Energy and Arab Cooperation',

reported the Lebanese National News Agency.

The Conference is being organized by the Organization of Arab Petroleum Exporting Countries (OAPEC).

The official Lebanese delegation included the current President of the Petroleum Administration Gaby Daaboul, the Board Member Assem Abou Ibrahim, and Lebanon's Consul in Abu Dhabi Hadi Hashem.

Daaboul addressed the audience at the Conference, saying that Lebanon, which launched the first offshore licensing round in its coastal waters, encourages the Arab energy companies, mainly petroleum firms, as well as services companies to enter the Lebanese petroleum activity.

Noteworthy, the Conference received several official delegations, international authorities, experts, in addition to Ministers of Energy from several Arab countries.

During the Conference, the discussions included the region current situation of Oil and gas markets; energy resources, its consumption, and how to rationalize it; technological development in such field; as well as energy and sustainable development.

Note that Lebanese Petroleum Administration (LPA) is planning to launch promotion campaigns in Lebanon and abroad to reactivate the exploration plan and to encourage oil companies to invest in oil and gas sector.

In this issue several oil and energy conferences would also be held soon and Lebanon will participate in most of International conferences, fairs, exhibitions and summits in a bid to assure the companies that drilling for Oil and Gas sector in Lebanon is a wise and rewarding investment.

Already some of the local and international event organizers and institutions are in contact with the LPA for scheduling their conferences, summits, meetings, appointments... on 2015 calendar.
